Crypto Triumph Related Software: Crypto Triumph Related Software Multimedia security software for consumers and enterprise that provides secure access to all digital content on all devices. Secure Folder with Encryption/Decryption: provides secure access to documents and photos that can be accessed from any device, or password-protected to prevent unauthorized access. Streaming video and audio player for streaming media playback. Utilizes any Smartphone as a remote control for home audio and video. Stream music from your PC to your Home Theater.

What's New In?

Protect and recover your files with just a few clicks Encrypt a file using advanced AES 256-bit encryption, including a password Decrypt a file using a password, even if the file was encrypted using another password Crypto Triumph App/Program Key Features: Encrypt and decrypt a file using AES 256-bit encryption AES 256-bit encryption is also known as "Advanced Encryption Standard" and it is the current national standard for data encryption. It is considered to be a gold standard for security because it is the most widely used standard on the market today. It is the encryption used by all government departments, including the NSA, and you can easily access a free public key for this encryption standard. All types of files and folders can be encrypted, including the contents of any folder Protect files using more than one password Protect multiple files with a single password Recover files using a password that is the same or different from the one you used to encrypt them The files are encrypted on your computer and the app only needs access to them. So there is no risk of the file being compromised if your computer is stolen. This software encrypts the file or folder before it is sent to your computer and it does the opposite, decrypting the file or folder when it is received back from the person who sent it. Crypto Triumph will not send any information about your files to anyone Crypto Triumph encrypts and decrypts a file in just a few seconds You can choose to encrypt or decrypt a file or folder, or all files and folders on your hard drive or in any removable drive Recover files or folders in just a few simple clicks You can even encrypt or decrypt multiple files and folders Use several passwords for the same file or folder, all without needing to remove the encryption from one of them. This is very useful if the same file or folder needs to be encrypted or decrypted several times Create a password with no less than 8 characters and no more than 8 characters A password that you use to encrypt a file or folder must be different from the one you use to decrypt it Crypto Triumph encrypts or decrypts the files or folders with the highest security levels The files and folders are encrypted using AES 256-bit encryption

Windows 8/8.1/10, 8/8.1/10 64-bit (DVD or USB), or 7/7.1/8 32-bit (USB) 4 GB RAM or more (32-bit) 3 GB RAM or more (64-bit)  
Video card with at least 2GB of memory Mouse Keyboard Internet connection for updates HDD space for installation Approximate play  
time: 1-2 hours (DVD)
